

Stable Glaucoma Monitoring Service

We have launched a new community service to support people who have glaucoma, where the condition is now stable.

If your care is being transferred into this new community service your consultant will write to you to let you know this is going to happen. They will also give you details about where you can choose to be seen for your appointments in future.

Below are the details of the organisations that provide this service on behalf of the NHS and the location where appointments will be held. Patients who are referred to this service can choose the provider they would like to provide their care from the list below.

Name of service provider	Location	Telephone no.
Dorking Healthcare Ltd	Dorking Community Hospital, Horsham Road, Dorking, Surrey RH4 2AA	01306 646200
Epsomedical Limited	The Ebbisham Centre, 6-7 Derby Square, Epsom, Surrey KT19 8AG	01932 588400
Epsomedical Limited	Cobham Day Surgery Unit, 168 Portsmouth Road, Esher, Surrey KT11 1HT	01932 588400
